## Freestanding Advertising Kiosks

### Brightness Can Up to 500nits

It is the best selling digital signage product in the world! Stylish design, ultra-thin body with 3 times brighter than ordinary TV, is your best tool for advertising

### Network CMS Upgrade

We also offer cloud basis network CMS if required ,and you can run the third party Digital Signage software via the Android PC board too.

### Super Slim Design

Open cell is the new technology for the digital signage industrial, LCD cell would be stall on the shell directly so the thickness of the kiosk would reduce to the level of ultimate slim.

### Commercial Grade

Designed for use in commercial applications this screen can run 24/7. There are no external buttons or controls to avoid tampering.

### IPS Panel

Superior image quality and colour depth at 178° ultra wide viewing angle in both landscape and portrait orientations.

### Touch Screen Upgrade

The screen can be upgraded to become a ten touch points Pro-Cap touch screen, create buttons and multiple playlists to make the screen get interactive

### LED Backlight

Improves brightness and contrast as well as improving their lifespan and reducing their power consumption. Unlike other forms of light this technology is mercury free; making it even more eco-friendly. The panel and backlight have a lifespan in excess of 60,000 hours.

# Product Advantages

# Product Features

## Tempered Glass Protection

High light transmittance tempered glass in front of the screen as protection, safety your digital signage player in anywhere.

## Brightness Can Up to 500nits

3 times brighter than normal TV, is your best advertising tool

## Commercial Grade

Designed for use in commercial applications this screen can run 24/7. All connectors have been locked to avoid tampering.

## Segmented Lock Screw

Using segmented locking screws, you only need to lock the screws on the back of the machine to ensure the stability of the machine and greatly improve the practicability of the machine

## Cloud Bases CMS Upgrade

Player could be upgrade to network CMS if standalone version can't meet your control demand, via network CMS you can manage the player any time in any place with Internet.

## Plug & Play

Plug and play is the easiest and most simple way to upload content to the screen. Simply load images and videos onto a USB stick, insert in the display, wait for your content copy over and then remove.
