# DIGITAL SIGNAGE POSTER

## Plug and Play

Plug and Play is the easiest and most simple way to upload content to the screen. Simply load images and videos onto a USB stick, insert in the display, wait for your content to copy over and then remove. Your images and videos will now play in a continuous loop.

## Network CMS Upgrade

We also offer cloud basis network CMS if required, and you can run the third party Digital Signage software via the Android PC board too.

## Foldable Stand Bracket

The stand bracket not just can folding attach to the back of the kiosk to makes the kiosk easy carry around, but also can adjust the folding angle to suit different installation place.

## Commercial Grade

Designed for use in commercial applications this screen can run 24/7. There are no external buttons or controls to avoid tampering.

## IPS Panel

Superior image quality and colour depth at 178° ultra wide viewing angle in both landscape and portrait orientations.

## Portable Design

The bracket could be fold to make the full side of kiosk small, with wheels on it's easy to move around, designed for the people who need to move the kiosk everyday.

## LED Backlight

Improves brightness and contrast as well as improving their lifespan and reducing their power consumption. Unlike other forms of light this technology is mercury free; making it even more eco-friendly. The panel and backlight have a lifespan in excess of 60,000 hours.
