Security Monitor

Designed for different applications

Our professional monitor designed for different application like security room, traffic center, control center etc. It's the perfect replacement product of traditional monitor, the bezel of it is 8mm only and the brightness is 500 nits. More than that is the color is more than normal display, because we are using Q-LED technology for the display.

Ultimate 4K resolution

With great 4K resolution, you will be impressive by the perfect image performance with it!

Multiple sizes to choose

From 43 inch up to 75 inch, there are 5 sizes can be choose, you can find the best one for you.

Professional I/O connector

With multiple connectors which support most of the signal source of the market.

Commercial Grade

Support 24/7 working time

High Brightness

Normal monitor just get 250~300nits brightness, but our monitor has 500nits high brightness.

Full Iron Shell

Full shell made by strong metal and aluminium, stronger than the plastic.

Narrow Bezel Design

Does not like normal monitor on the market, bezel just get 8mm.

QLED display

With Q-LED display technology, the image quality is would be more impressive than the normal monitor.

Support both landscape and portrait
